Tips

Create a search profile with notifications:

If any of the available rental homes comply with your search profile, you will receive a notification (e-mail) at around 17:00 o'clock. A notification will only show homes that fit your personal details and search profile.

The three search models are:

Registration period: The residence seeker who has been registered the longest will have the best chance

First response: The candidate that responds first will have the best chance of being awarded the rental home. These rental homes will always be placed online at 19:00 o'clock.

Via a draw: All residence seekers have the same chance of being awarded the rental home. If it is no longer possible to respond to a listing, the system will rank all residence seekers randomly.

Make sure your details are correct: If you are eligible for a rental home, the housing association will always check whether your personal situation/financial situation fits the allocation requirements. It is important for you to change your details if something changes in your personal circumstances. If you fail to do so, the housing association may not be allowed to offer you the home.

Make sure you provide extra documents

in time: If you receive an invitation, the housing association will ask you to add additional documents, for example a payslip, an extract from the municipality or a lessor statement. You can add these under Mijn documenten.

Fast track procedure. Do you have questions about applying for the fast track procedure (if you quickly need a home)? Then please contact one of the participating housing associations in your region. This also applies to Wmo (Social Support Act) relocation notices from the council. Exception: If you have questions about the fast track procedure in Maastricht, then please contact info@thuisinlimburg.nl.

Cross out your citizen service number (BSN) on the documents you upload via Mijn Documenten. Only show your passport or identity card when asked to do so by a housing association.

Extend your registration yearly: Each year, 5 weeks before the registration date, you will receive an e-mail to extend your registration. If you do not extend your registration, you will be unregistered automatically. If you accept a home via Thuis in Limburg, your registration will be cancelled and your spot on the waiting list will be deleted.
